

BCURIOUS PREMIUM

Let your curiosity get the better of you. The Bcurious Premium is sleek, sexy, and satisfying. Its silky-smooth, sliding curve and expertly defined tip is designed to excite both targeted and broad areas. 7-functions create infinite pleasure as you explore a multitude of sensations, alone or with a partner.

Our nonporous silicone materials take the work out of cleaning so you can focus on the play. And because it's waterproof and rechargeable, you can follow your creative urges wherever they take you.

USE

To use simply press the power button and click the function button to alternate through all 7 rumbly vibration patterns.

The Bcurious is ergonomically designed; each surface and curve is designed with the specific intention of pleasure. The broad curves and pointed tip means that this toy can be used to create broad or pinpoint vibrations customized just for the user's preference. The pinpoint accuracy is very popular for direct stimulation while the broader angles fit wonderful around sensitive areas. The firmness of its material makes it great for grinding against. This massager is exclusively for external stimulation.

CHARGE

The Bcurious is conveniently charged via a USB magnet-pin connection. Simply plug the charger's USB end into a USB charging socket, align the charger's magnet-pin with the magnet-pin located on the Bcurious' exterior and the pins will adhere magnetically and your personal massager will begin to charge.

Unique design offers limitless possibilities of pleasure

CARE

The life of your massager will be greatly increased with proper maintenance and care. Be sure to wash before first use and after each use. Clean using a non-alcohol based antibacterial soap and water, or a dedicated personal massager cleaner. Ensure your massager is completely dry and remove any potential batteries before storing.

It's important to use the correct lubricant in order to avoid damaging the coating of your massager. The Bcurious Premium contains silicone and must be used with a water-based lubricant.
